

IV. Basque Tournament of Atari 2600

The last monday, 4th of July of 2022, the Euskal Retro association met again to play Atari 2600 and to organize the IV. Basque Tournament of Atari 2600. This time we didn't play to Atari Lynx.

9 players met in Bar Azteka (Santutxu-Bilbao) and we enjoyed a lot playing to Atari. We chose 4 games for Atari 2600: Desert Falcon (second time we played it), Missile Command (a classic and great game), Basketball (a classic in our tournaments) and Outlaw.

We start with Desert Falcon and Missile Command, two games to play individually. Egoitz made it to the first Desert monster, and thus got the best score. In Missile Command Luis showed that he was the best at shooting the enemies that threatened Earth.

Then we play two games to play two against two. In Basketball we only did one round, and the winners were those who won their game and finally we played Outlaw, again only one round.

Finally the winner of the tournament was Egoitz but Ivan did very well. Mikel and Luis also played very well that nice afternoon

The idea is to play another Atari 2600 in february of 2023 and we hope to be able to go in July of 2023 to play the I. European Championship of Atari 2600 and represent Basque Country. Here the results:
