

XII.Basque Tournament of Atari 2600 2026

The 13th of august the Euskal Retro Association organized the XII. Basque Tournament of Atari 2600. That day we got together at my house in Derio to play because I have a sprained ankle. in San Inacio, Bilbao (Basque Country). Good atmosphere. Although we stayed in my house all the afternoon we passed a good afternoon playing retroconsoles. After Play Station 2 we put the Atari 2600. This time again we played in the Atari flasck because the original machine broke last year

We played 5 games: Basketball, Frogger, Outlaw, Combat and River Raid. It was a close tournament with a lot of competition among us. Egoitz was the winner but the rest of players played well, specially Joseba Fernandez and Daniel Barrientos. We met 4 players; Egoitz Campo, Daniel Barrientos, Joseba Fernández and Álvaro García.

We started the tournament with **Basketball**, a classic game in our tournaments. We played semifinals and the final. The best player was Egoitz, after beating Joseba in the final after a very close match.. Then we played Combat, a tank game. Emifinals and final. Egoitz again It was the best missile launcher in that old, classic tank game. Then we played another game in pairs, **Outlaw**. In this Wild West game, Alvaro was the best. Finally, we played two individual games, first **Frogger** and then **River Raid**. **Frogger**, another classic game. Here, the players have to guide the famous frog to the gates, crossing the river. Joseba Fernández got the highest score. Afterwards, we played **River Raid**, another great game. Here again, Egoitz managed to advance across more bridges than the rest and destroy more enemy planes and helicopters., and finally get more points.

Egoitz achieved the highest score in the tournament, winning the XII Basque Tournament of Atari 2600. However, the rest played really well. Now, if all goes well, we'll get together again in february of the next year to play another Atari tournament. Here we leave the results (score into parenthesis):
